

How to Procure DataMotion Through the Azure Marketplace

☐ Step 1: Verify Your MACC-Linked Subscription

- Confirm you have an Azure-eligible subscription by checking your enrollment details or consulting your account rep.

☐ Step 2: Navigate to Azure Marketplace

- From the Azure Portal, go to **Marketplace**.
- Search for your desired solution. In this case, search **"DataMotion."**

☐ Step 3: Confirm MACC Eligibility

- Verify that you see the **"Azure benefit eligible"** badge.
- If you don't see this badge, stop. The listing won't reduce your commitment.

☐ Step 4: Choose and Configure Your Plan

- Select the DataMotion plan that aligns with your workflow priorities.
- Other integrations (Microsoft 365, Dynamics 365 & Entra ID) can be added as needed.

☐ Step 5: Click Subscribe and Deploy

- Click **"Subscribe"** or **"Create"** and complete the checkout process.
- Select your MACC-tied subscription before confirming.

☐ Step 6: Track Spend and Usage

- Your DataMotion subscription will appear on your consolidated Microsoft invoice.
